

Are You Wasting The Price Of a Titan Engine?

TITAN engines run on kerosene. Average cost of gasoline so far this year, 16.9 cents per gallon.

Average cost of kerosene 7.7 cents per gallon. Gasoline costs over 100 per cent more than kerosene. Gasoline is going up steadily. Kerosene is not. At present fuel prices Titan engines, using kerosene, save their owners about 1.1 cents per horse power per hour.

Are you running a gasoline engine? What horse power is it? Figure what you'd be saving if you had a Titan kerosene engine. Rather surprising, isn't it? How long would it take that saving to pay for a Titan engine of the same size?

Card From Supervisor King

To the Public:

In announcing my candidacy for re-election as county supervisor, I am doing so understanding full well the fullness of such an effort. That it will hamper my time that I am already due the county to make a house to house canvass as my opponents will have the opportunity of doing, and in entering I assure my opponents thus publicly that I expect to meet them square as one gentleman meets another and bid them "go to it," because I run on my record and theirs is to make one, and if they are elected I hope for the sake of the many thousands and people whom they will serve that their record may be a good one. When I accepted the place by appointment at the hands of Governor Blease in June, 1913, I determined to be fair, frank and impartial with friend and foe alike, and it is for the people to judge of my conduct in their office as to the truthfulness of my promise to do this. I know that my intention has been to extend "equal rights to all and special privileges to none" in the discharge of my duties and in so doing I figured that ultimately that would result in good to all the people in the County. I adopted the policy of beginning at one side of the county and working every road as I came to it, as I would a field, until I reached the other side, changing the grade on the main line roads as well as widening them, working the cross-roads, and in so doing I have encountered many difficulties that might have jarred many men from their policy; but I have always adhered to my policy most zealously, and the harder they fought me in high and low places, the more determined have I been to make believers of those who opposed me. If I succeeded in converting the smallest portion of my former opponents, I felt fully repaid for my efforts to give a square deal in this office. On July 1st, 1913, Anderson County was on the threshold of disruption insofar as equipment, etc., was concerned. I found myself badly handicapped insofar as getting on a business basis was concerned. I found the county paying a high rate for her money, 7 per cent discount, and buying her supplies at retail prices. I immediately set about to remedy in so far as possible this condition. In 1904 I succeeded in borrowing money at 5 1/2 per cent, a saving on that year's loan of about \$3,000.00, and on 1916 at 3 1/2 per cent straight interest, a saving on this year's loan of about \$3,600.00, amounting on this item alone for the three years that I have been in office to in round numbers about \$5,000. In the three years I have drawn in "wages" \$3,600.00. Take one other item—coal. We consume about 400 tons coal annually. I buy it wholesale in car load lots at about \$3.40 a saving of \$900.00 annually on this item and did so, and their readers patience not conflict, I could enumerate what I save to the county on shoes, grain and chaffing supplies, amounting to at least an equal amount to the interest saving annually; or to be exact, or near exact, say not less than \$5,000 to \$6,000 annually against conditions as I found them, and I figure that if I can keep this system for another term that I can set our roads in a good physical condition and our finances in good shape. I am asking for the office solely on worth and merit, and because I think I am entitled to at least another term in order to vindicate my policy of "equal rights to all and special privileges to none" on the road proposition, and in announcing a continuance of this policy I do so fully realizing that as in the past I will be fought fiercely by a certain clique that believe most ardently that the supervisor is a tool to be used to the interest of certain localities and such a policy is not to the interest of all the people. My only promise is if elected, to be fair, frank, and impartial, and continue as in the past to be the supervisor for all the people. One other word and I am done. When I have gotten over the county with this better class of work which I term "permanent preparation," unless I get more liberal appropriations for maintenance of roads and am compelled to do the work with chaffing labor, my proposition would be to cut the chaffing into four squads instead of three as at present, putting one gang in each four townships and allowing it to remain as a fixed proposition and belonging exclusively to the four townships in which it is located, and unless there be more liberal appropriations to maintain roads this shall be my policy. When I get over the county, which I think I will be able to accomplish this year, or nearly so, my friends think that I have succeeded admirably with my policy when they consider that all the supplies I buy are from 20 to 40 per cent higher than they were a few years ago, and of course my "dred in the wool" enemies will not think well of my work it matters not what I do. Such is politics, but it should not be so. However, I am servant of all the people and expect to continue to extend due courtesy and equal show to the humblest as well as to the most powerful citizen of our county. One other condition that I desire to mention is the objectionable situation that I found existing at the chaffing, the practice of forcing the white prisoners to sleep in the same quarters with the negro convicts. I exchanged white and colored prisoners and caused to be opened up a separate sleeping tent for the whites and after two years' experience along this line I would never consent to return to the prevailing practice. I found it when I accepted the place that of forcing white men to occupy the same tent with negroes, and I enter this card

as the candidate of no wire controlled combination or locality, but solely on my record, as a servant of all the people, and bearing no ill will to any one unless it be possibly the combination that has so unmercifully and despitely used me since I have been in the public eye, and if the Lord can forgive them for the rank injustice done one who is doing his level best to raise and educate three motherless children and care for an aged mother, as well as extract some little pleasure out of life for himself as he passes, I say if the good Lord can forgive them, I surely can, and hope when this campaign is completed to be able to exclaim "Victory won," justice to all.

"IT CERTAINLY WAS TORTURE" HE SAYS

SILKINS SAYS TANIAC WAS ONLY REMEDY TO GIVE RELIEF

"IS MOST WONDERFUL"

Oakley Man Tells of His Terrible Suffering With Rheumatism and Aid Tanlac Gave

I want to say that Tanlac is the only thing which ever gave me relief. Rheumatism was my greatest torture too." In these words, E. L. Silkins, a logger at an Oakley, S. C., camp began to tell of his physical troubles and of the relief Tanlac gave him—relief which he said he considered truly wonderful.

Mr. Silkins' statement follows, as it is one which should create a profound impression with those who suffer as he did.

"I suffered from indigestion and rheumatism. These were my most distressing troubles. I would have a full, heavy feeling around my stomach after eating. I could not eat vegetables, and when I did take a chawco and eat vegetables I would suffer terribly with gastritis.

"I went to several physicians for treatment, but they would not tell me what was wrong with me. They would tell me that they would cure me, but I want to say right here that Tanlac is the only thing which has ever given me relief.

"Rheumatism was my greatest torture, and it certainly was torture, too. I could not sleep and I had pains in my back and sides all the time, day and night. They certainly gave me a terrible time, and I could not get easy. I could not sit down with any comfort, and I would have to put pillows behind my shoulders and prop myself up when I did sit down. My liver was sluggish and I felt sleepy and worn out all the time.

"I bought Tanlac because it was recommended to me by a gentleman who had used it and had been greatly benefited by it. My relief from Tanlac has been truly wonderful. I think I have used only two (2) bottles, and I feel better in every respect. I can eat anything I want now and I do not suffer with gastritis. My rheumatism is entirely gone now. That is the thing which pleases me most. My liver is working normally now, and I sleep well.

"Tanic is certainly the most wonderful remedy I have ever used. It has relieved me absolutely and that is far more than anything else was able to do. I certainly do recommend Tanlac for what it did for me, and I shall always have a good word to say for it."

HIDDEN TROUBLE

Because your teeth are faultless in APPEARANCE, it does not necessarily follow that they are SOUND. HIDDEN TROUBLE may be commencing in unseen places. Decay is often present for weeks BEFORE it becomes apparent. The skillful dentist can detect these places and PREVENT discoloration and disease. Go at least twice a year to your dentist, and have your teeth examined.
